Our Goal is to teach you to train your dog to be the companion you want. We believe everyone's needs are unique and we style our training accordingly. We can help you build the confidence of a shy dog; tone down the exuberance of a hyperactive or feisty dog; teach your dog to behave around other dogs and people; prevent and solve annoying problems such as jumping up, pulling on leash, or getting into the garbage; and of course the fundamentals of obedience. We believe training should be a fun and rewarding experience for both you and your dog. We also believe that there must be a mutual bond of trust and respect between you and your dog in order to get the most enjoyment and fulfillment from your relationship together.
